We are very proud of our door's credentials and its ability to meet the most demanding technical requirements.

With two decades of experience and a dedication to excellence, we have earned the trust of installers and homeowners across the UK.

Our doors have been designed to keep your home safe and snug, reflecting our commitment to quality craftsmanship and your peace of mind.

Quality you expect
We have the best product in the market by far. Our superior GRP doors have a high impact resistant skin with a beautiful woodgrain finish which gives a Distinction door its prestigious authentic and premium aesthetic.

Engineered wood
For improved stability.

Foam filled core
The rising cost of energy bills and the impact on the environment means we all want to keep our consumption to a minimum by keeping warmth in and draughts out. When compared to a solid timber core composite door (48mm) and a timber panelled door (44mm), calculations prove that our composite door is 50% more thermally efficient than the alternatives.

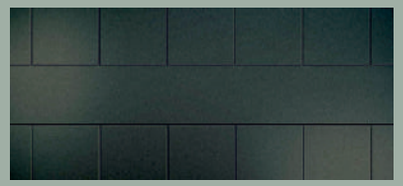

Decorative glass
Triple glazed and laminated as standard 24mm glass units for enhanced security and peace of mind.

Water-resistant composites
Water-resistant polymer composite rails help keep water absorption at bay, which helps prevent a bowed door; often associated with timber core alternatives.

Reinforced core
The reinforced central board gives you extra reassurance that your Distinction door is both solid and secure and has earned our door its reputable ‘Secured by Design’ status.

Style notes

Tap into your imagination and discover colour.

Your door doesn't need to be white on the inside!

Opt for a cool grey on the inside of your door to create a contemporary look.

Enclosed mini-blinds

Our mini-blind is the perfect solution for controlling light and privacy in your home. Mini-blinds have a simple control mechanism to be raised or tilted with one hand. The system uses a magnetic tab rather than a traditional cord, so is completely safe for use around children. Enclosed within two panes of glass, it never requires painting and is protected from damage and dust. A practical finishing touch to any external door.
